

Best-Value Call Ticket Application for Small Businesses, Workgroups and Professionals

BENEFITS

1. Get Organized

Home Run Help Desk provides you with an easy way to add or find your call solutions quickly or, you can create new solutions that will be available to you in the future. Home Run Help Desk is the solution for creating and managing call ticket and solution information so you can get and stay organized.

2. Track Incoming Calls

Of course, knowing who called and with what issues can be a daunting task as your work load increases. Take a step in the right direction and log your incoming calls into Home Run Help Desk. You'll come a long way in streamlining your support processes and service management procedures.

3. Reuse Call Solutions

Home Run Help Desk helps you find solutions to previous issues faster the next time those issues come up. That means you can focus on newer problems which builds your Solutions Base. The more issues your solve and record with Home Run Help Desk the more productive you become.

4. Boost Customer Service

You can significantly increase your Quality Of Service by quickly and effectively reusing what you already know. Home Run Help Desk provides a way for you to instantly find the answer to a customer inquiry. As your customers know, there's no substitute for timely responses and fast resolution!

Learn about HRHD features online:
HomeRunHelpDesk.com/hrhd/features.htm

Home Run Help Desk for Access (HRHD) is a Microsoft Access -based call ticket application that can help you reduce ongoing computer troubleshooting and support costs by allowing you to recycle historical technical solutions. Get more organized, track incoming calls, reuse call solutions and boost customer service. Its features include an easy-to-use interface and call ticket notifications.

TOP 5 REASONS TO USE HRHD

1. Ease of use. No training is necessary. Our software looks and feels like many software programs you already use. And it runs exclusively inside of MS Access, so there is never anything to install.

2. Ownership. You buy a Purchase Key to take ownership of your evaluation copy, so you are never charged licensing fees and there are never any licensing hassles.

3. Freedom. No arbitrary user limits are imposed by our application. You are constrained only by the MS Access specifications.

4. Supportability. Our software is written in MS Access, so it can be supported with your existing resources or you can easily find them in your local area to maintain or customize it.

5. Control. Database objects and application code are not locked down! That means you're in control, and you can make changes to the database or code as required.
